OCEANOGRAPHIC  
INSTITUTION

**REEF SOLUTIONS**

## Explore the future of coral conservation!

Come hear from scientists and engineers at the Woods Hole Oceanographic Institution about innovative new tools and techniques designed to improve the health of coral reefs in St. John and around the world.

- Appropriate for all age
- Hands on activities
- Q&A with the team

**Monday, April 7 | 6pm to 7pm**  
**Raintree Cafe**

Cinnamon Bay Beach & Campground  
St. John, USVI

### **Woods Hole Oceanographic Institution (WHOI)**

is the world's premier independent organization dedicated exclusively to ocean research, technology, and education. We combine state-of-the-art science, engineering, and ship operations to unravel the mysteries of the deep and devise science-based solutions to planet-wide problems.

### **Reef Solutions**

WHOI's Reef Solutions team is developing solutions to rebuild reefs and improve coral resilience—before it's too late. Since 2021, and in partnership with University of Virgin Islands, National Park Service and CORE, we've applied our advanced diagnostics and interventions Toolkit to reef ecosystems in the US Virgin Islands. We're continuing to test and improve our methods in USVI—and in reefs around the world!
